**Questions?**

Visit HealthCare.gov or for telephone assistance call 1-800-318-2596.

**Benefits of Enrolling in the Marketplace**

Even if you qualify for an exemption, there are benefits to enrolling in a health plan through the Marketplace, Medicaid or CHIP.

- You can continue to receive services from your Indian health care provider.
- You may qualify for special enrollment periods to begin coverage outside of the open enrollment period.
- You may qualify for cost-sharing reductions that lower out-of-pocket costs.
- You will help tribal programs because having health insurance, Medicaid or CHIP brings third-party resources into your tribal community.
- Find out about the options available to you on HealthCare.gov.

---

This chart helps you to understand what steps you should take to meet the requirements of the Health Care Law and to learn about new opportunities under the health care law through the Health Insurance Marketplace. There may be benefits available to members of federally recognized tribes or Alaska Native Claims Settlement Act (ANCSA) Corporation shareholders. Other benefits are available to people of Indian descent or who are otherwise eligible for services from the Indian Health Service, a tribal program or an urban Indian health program who together are referred to as Indian health care providers.
